

# Live demo: Dual Version or How to stay up-to-date

**Dmitriy Manshilin**

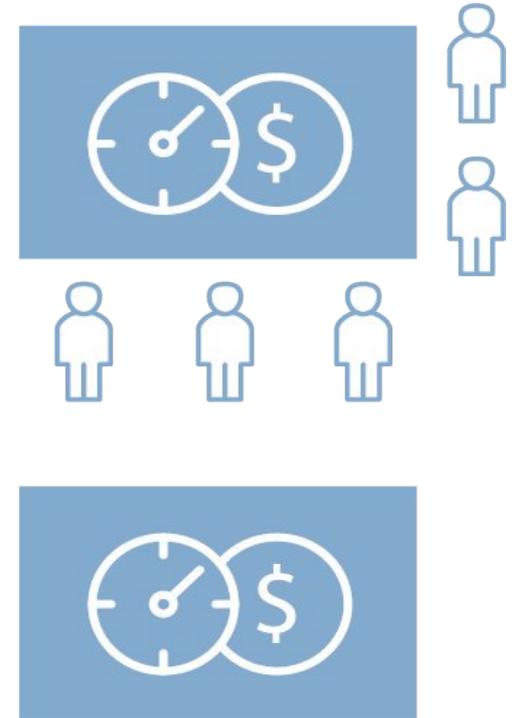

Technical Support Manager

# Topology of Dual Version PortaSwitch

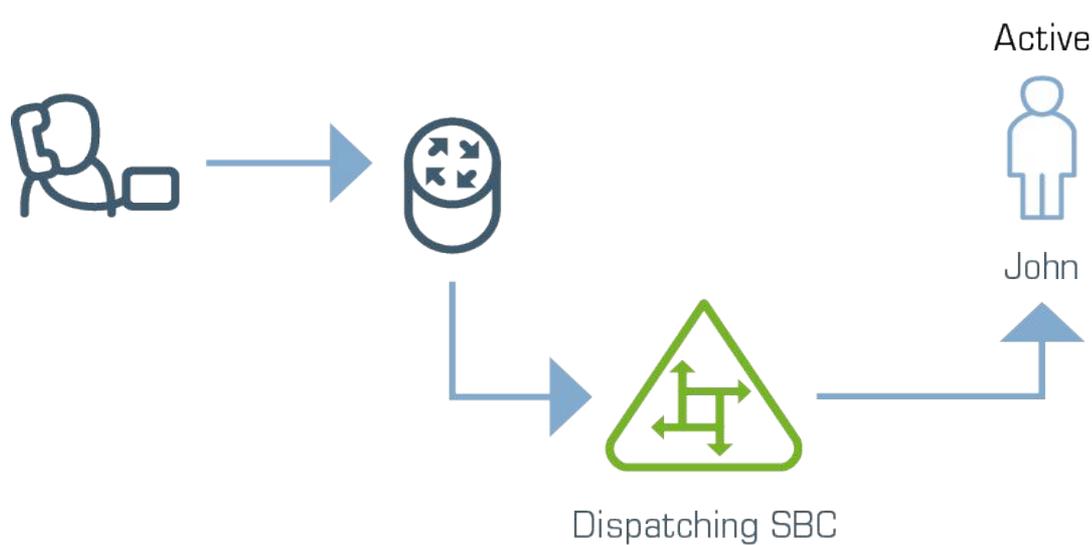

# Initially

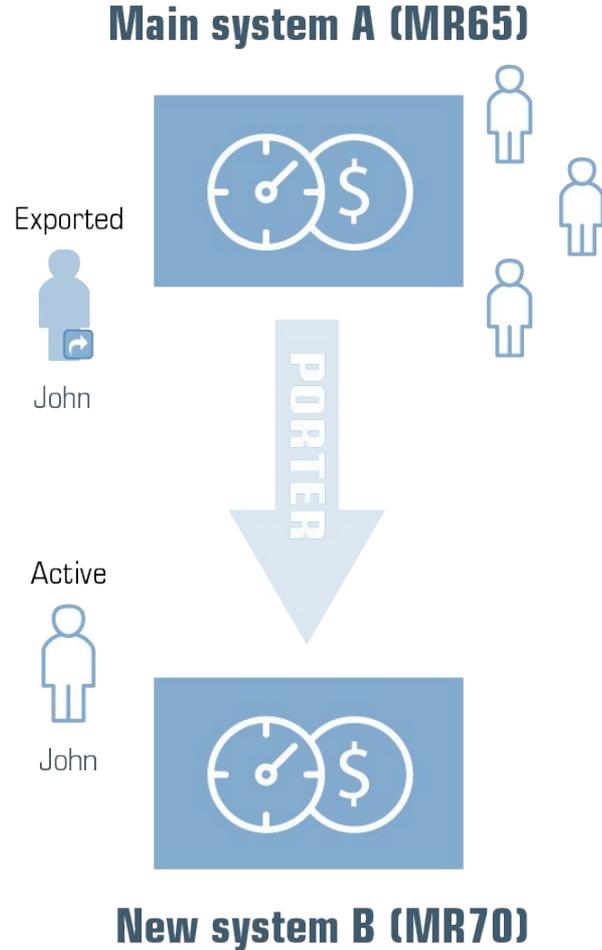

## Main system A (MR65)

## New system B (MR70)

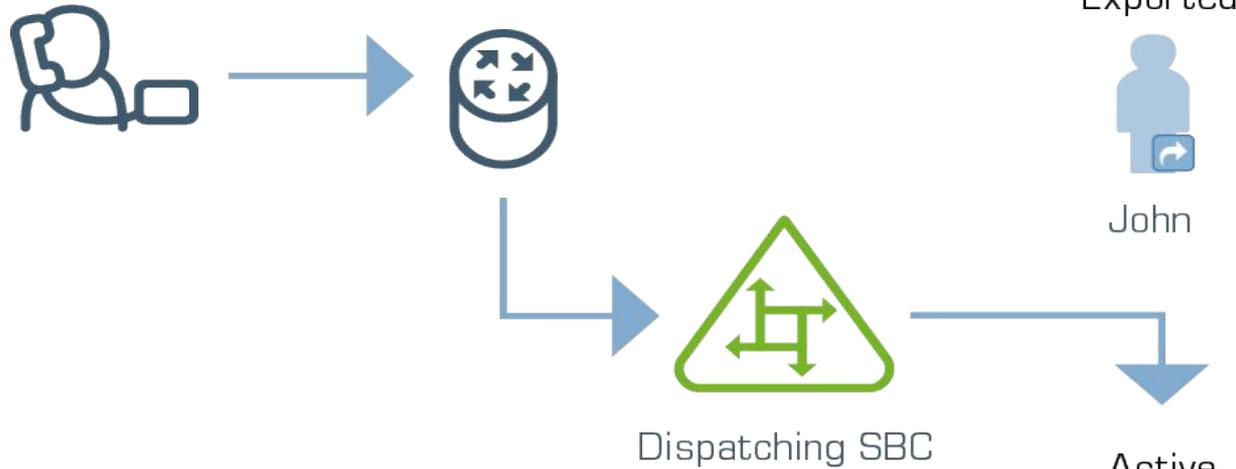

# Transferring customer to Alter-Ego

# Customer has been migrated

## Main system A (MR65)

Exported

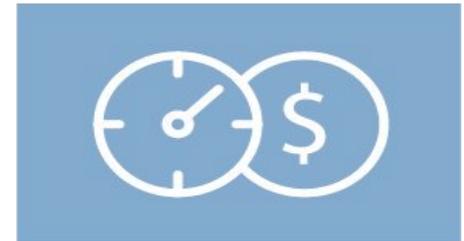

John

Active

John

## New system B (MR70)

## What's new in Porter?

- multithreading
- preserving IDs of objects
- support for MR50-x
- “Retreat” of a customer to the old system

## Summary:

- gradual migration to a new release
- seamless for customers and carriers
- controlled flow at your own pace
- possibility of rollback
- option of cloud deployment

Thank you!
