Operator panel switchboard -1

The screenshot shows a web-based operator panel interface. At the top, there's a header with a search bar containing "7010 (33173053420)", a "Phone" label, and a "Call" button. To the right are language options for "Français" and "English", and a "Logout" button. Below the header, the main area is divided into two sections. On the left, under "Your accounts", there are several account cards. One card for "Grigoriy Dobrovolskyy" (7010) is highlighted with a green border and has a "TRANSFER" button. A mouse cursor is hovering over this card. On the right, a chat window is open for "Maxim Kaminskiy". The chat area shows a "No more messages" indicator and a message from "Grigoriy Dobrovolskyy" at 17:49. The chat input area has buttons for bold (B), italic (I), underline (U), and other functions. At the bottom, there's a Windows taskbar with various application icons and a system tray showing the time as 17:49 on 14/06/2017.
