2017

This Year's Message:

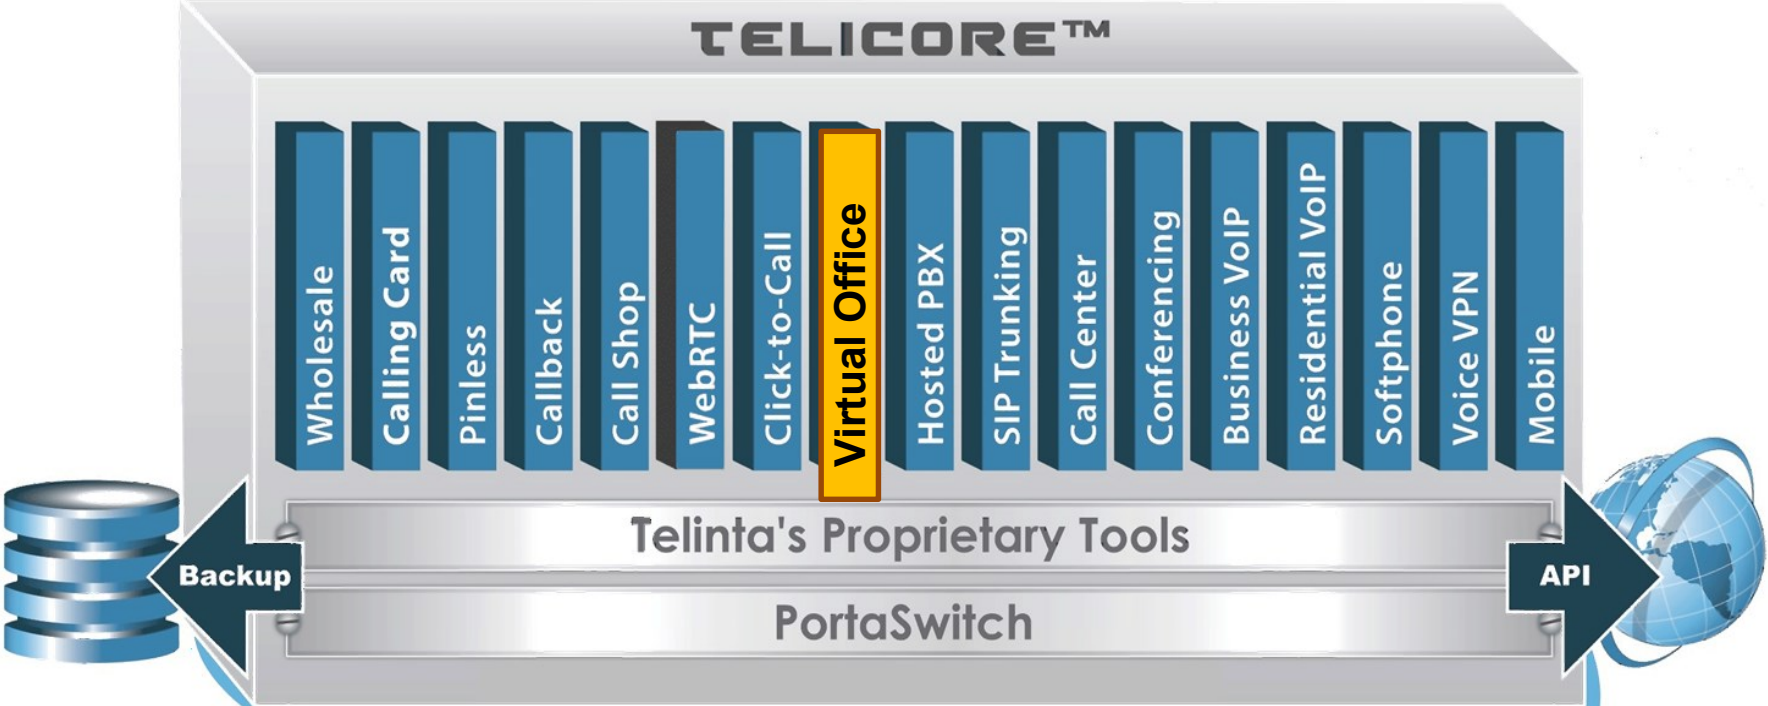

Focus on One Example of Telinta's Custom Development for a Unique New Solution for Service Providers:

“Virtual Office”

Our Portfolio

Virtual Office

End Users can customize their own VoIP solution in the Cloud using Telinta's Brandable Self-Serve Portals

Two Important Benefits

End Users do not need an IP phone or ATA, but can route calls to their existing landline or mobile phones.

End Users can customize their own VoIP solution in the Cloud using Telinta's Brandable Self-Serve Portals

Two Important Benefits

End Users do not need an IP phone or ATA, but can route calls to their existing landline or mobile phones.
